Waterproof Arm & Leg Protector

Swim, Shower & Bathe

The quality of the Dry Pro™ cast and bandage protector is unmatched. With the vacuum seal, it can't even be pulled off.

Enjoy the Water!

Take a warm shower, relaxing bath or even a refreshing swim. The vacuum seal of the Dry Pro™ is so watertight it can't even be pulled off!

Extreme Durability!

The Dry Pro™ is made of durable high quality surgical latex and can be used daily for months. The special Non-Skid Grid™ protects the sole and helps prevent slipping.

Simple to Use!

Messy plastic bags and tape are difficult and just don't work. The Dry Pro™ slides on in seconds and the seal keeps water out.

Easy as 1-2-3

1. Slip On
Slide over the cast, bandage or prosthesis.

2. Pump Out
the air using the removable hand pump.

3. Remove
When you're done, simply let the air back in and slide off.

Enjoy the Water!
